## Primary Care Networks

**Background**

One strategy for the delivery of value-based care is to create primary care networks (PCNs), which are groups of primary care physicians and other providers who agree to deliver care to a defined population of patients. PCNs are designed to improve the coordination of care and to reduce costs by sharing resources and information. PCNs can be organized in a number of ways, including as a formal legal entity, a loose affiliation of physicians, or a network of physicians who share information and resources. PCNs can be organized in a number of ways, including as a formal legal entity, a loose affiliation of physicians, or a network of physicians who share information and resources. PCNs can be organized in a number of ways, including as a formal legal entity, a loose affiliation of physicians, or a network of physicians who share information and resources.

**Policy Objective**

The objective of this policy is to establish a framework for the development and implementation of PCNs that will improve the coordination of care and reduce costs. The policy will establish the following objectives:

- 1. To establish a framework for the development and implementation of PCNs that will improve the coordination of care and reduce costs.
- 2. To establish a framework for the development and implementation of PCNs that will improve the coordination of care and reduce costs.
- 3. To establish a framework for the development and implementation of PCNs that will improve the coordination of care and reduce costs.
- 4. To establish a framework for the development and implementation of PCNs that will improve the coordination of care and reduce costs.
- 5. To establish a framework for the development and implementation of PCNs that will improve the coordination of care and reduce costs.

**Policy Description**

The policy will establish a framework for the development and implementation of PCNs that will improve the coordination of care and reduce costs. The policy will establish the following objectives:

- 1. To establish a framework for the development and implementation of PCNs that will improve the coordination of care and reduce costs.
- 2. To establish a framework for the development and implementation of PCNs that will improve the coordination of care and reduce costs.
- 3. To establish a framework for the development and implementation of PCNs that will improve the coordination of care and reduce costs.
- 4. To establish a framework for the development and implementation of PCNs that will improve the coordination of care and reduce costs.
- 5. To establish a framework for the development and implementation of PCNs that will improve the coordination of care and reduce costs.

**Policy Implementation**

The policy will establish a framework for the development and implementation of PCNs that will improve the coordination of care and reduce costs. The policy will establish the following objectives:

- 1. To establish a framework for the development and implementation of PCNs that will improve the coordination of care and reduce costs.
- 2. To establish a framework for the development and implementation of PCNs that will improve the coordination of care and reduce costs.
- 3. To establish a framework for the development and implementation of PCNs that will improve the coordination of care and reduce costs.
- 4. To establish a framework for the development and implementation of PCNs that will improve the coordination of care and reduce costs.
- 5. To establish a framework for the development and implementation of PCNs that will improve the coordination of care and reduce costs.

**Policy Evaluation**

The policy will establish a framework for the development and implementation of PCNs that will improve the coordination of care and reduce costs. The policy will establish the following objectives:

- 1. To establish a framework for the development and implementation of PCNs that will improve the coordination of care and reduce costs.
- 2. To establish a framework for the development and implementation of PCNs that will improve the coordination of care and reduce costs.
- 3. To establish a framework for the development and implementation of PCNs that will improve the coordination of care and reduce costs.
- 4. To establish a framework for the development and implementation of PCNs that will improve the coordination of care and reduce costs.
- 5. To establish a framework for the development and implementation of PCNs that will improve the coordination of care and reduce costs.
