### PCN Orientation Sessions

#### Introduction

Primary Care Networks (PCNs) are a new way of organizing primary care services in Ontario. They are designed to bring together primary care providers, including family physicians, nurses, and other health professionals, to work together to provide better care for their patients. PCNs are a key part of the Ontario Health Services Transformation Strategy, which aims to improve the quality and efficiency of the health system.

#### PCN Steering Committee Chair

The PCN Steering Committee Chair is responsible for leading the committee and ensuring that it effectively manages the PCN. The chair is also responsible for reporting to the Board of Directors on the progress of the PCN.

#### Objectives

The objectives of the PCN are to:

1. Provide a high-quality, patient-centered primary care service.
2. Improve the efficiency and effectiveness of the primary care system.
3. Enhance the collaboration and communication between primary care providers.
4. Ensure that the PCN is financially sustainable.
5. Meet the needs of the community.

These objectives are supported by the following strategies:

1. Develop a clear vision and mission statement.
2. Establish a strong governance structure.
3. Build a strong culture of collaboration and teamwork.
4. Invest in the people and infrastructure needed to deliver high-quality care.
5. Monitor and evaluate the performance of the PCN.

By following these strategies, the PCN can ensure that it is meeting its objectives and providing the best possible care for its patients.

#### Purpose Statement

The purpose of this document is to provide a clear and concise overview of the PCN. It is intended to be used as a reference for all PCN staff and to ensure that everyone is working towards the same goals. The document also provides information on the PCN's structure, governance, and operations.

The PCN is a not-for-profit organization that is owned and controlled by the community it serves. It is designed to be a self-sustaining organization that can provide high-quality care for its patients.

1. Provide a high-quality, patient-centered primary care service.
2. Improve the efficiency and effectiveness of the primary care system.
