

THE LEARNING LAB: A LEARNING CULTURE

A Learning Culture is needed to improve patient care and provider wellbeing with well-defined, shared goals that inspire the best outcomes possible.

Fostering a Learning Culture

Inclusive & Embracing Collective Wisdom

A Learning Culture is inclusive and unleashes collective intelligence and experience.

Creative & Connected

A Learning Culture is a way of being that increases creativity, empathy, connection and makes people feel inspired and engaged.

Curious & Continuously Improving

A Learning Culture is a place of learning, growing and improving, through openness, curiosity and a willingness to experiment and take risks.

Creating a Learning Lab

A Learning Lab:

- ✓ is a key enabler to achieve PCN outcomes.
- ✓ meets people's needs.
- ✓ has a process for bringing ideas forward.
- ✓ is accessible for all to participate.
- ✓ is interactive and supports group learning.
- ✓ enables strong relationships to be built.
- ✓ has strong leadership.
- ✓ is prioritized with dedicated meetings and events.
- ✓ is well documented.
